

Continuing Education Credits

Chiropractic State Board of Examiners Offices

Certain states allow viewing of ChiropracticMentor.com videos to be used as continuing education credit for re-licensure. All states have different requirements and guidelines. Please visit your state's board of examiners website and review their requirements for obtaining CE credit. In some cases we have been able to identify states that we know DO NOT approve ChiropracticMentor.com for CE. Check with your state before it's time to re-new, and verify their policies and procedures for obtaining credits.

While many attempts have been made to "pre-approve" our site for CE credits, the requirements vary from state to state, and can change from year to year. Some states will allow you to submit an application to have your course (ChiropracticMentor.com) approved.

We can supply you with documentation or and an affidavit, simply by emailing your request to customersupport@ChiropracticMentor.com, however this is not a guarantee of re-licensure or earned credits.

Viewing videos on www.ChiropracticMentor.com does not guarantee you will receive continuing education credits. Please make sure you check your states guidelines and requirements carefully. We assume no liability for subscription fees if courses are not approved by your state.
